D.O.B: 07/02/2005
Gender: Male
Marital Status: Single
Nationality: Bangladesh

SUMMARY

I'm a UI/UX designer with 3+ years of hands-on experience in crafting designs that are both visually clean and genuinely intuitive. I've collaborated with businesses ranging from startups to established brands, turning their ideas into reality through user friendly and engaging interfaces. My approach combines creativity with strategy. I enjoy exploring user behavior, simplifying complex flows, and designing interfaces that make people say, "Oh, that's nice." I believe the best design feels invisible, but the experience leaves a lasting impression.
